THREE MORE REASONS TO APPLY TO OHIO STATE

DIVERSE COMMUNITY. There is no such thing as a typical Ohio State graduate student. More than 10,000 graduate students enroll at Ohio State each year from a wide variety of ethnic, racial, and cultural backgrounds, including approximately 2,500 students from more than 100 countries around the world.

COMPETITIVE FUNDING. Ohio State graduate fellowships and associateships are the primary source of financial assistance provided to graduate students. This type of financial support includes tuition, fees, a stipend, and healthcare subsidy.

COLUMBUS, OHIO. The capital of Ohio and home to Ohio State, Columbus is the nation’s 15th largest city and the largest city in Ohio, with nearly two million people in the region. The city is a major metropolitan area with national corporations, a vibrant arts community, professional sports franchises, distinctive neighborhoods with diverse housing options, and access to many recreational and cultural opportunities. Columbus has a great, central location and is within a one-day drive or one-hour flight of 41 percent of the U.S. population.
